WALK LEADERS' GUIDANCE

Ramblers have produced valuable general principles and guidance for leading walks with the following attachments. The guidance is of a general nature as it attempts to cover the huge range of walks from a gentle urban or Well-being stroll to ice walking and technical climbs/scrambles.

Ramblers advise that Groups can adapt the guidance to suit the circumstances of individual groups and the nature of walks undertaken. The eight guiding principles should be the bedrock for any Walk Leader.

The up-to-date documents can be found by accessing your Ramblers Account and browsing the Document Library – Walking Activities – Leading & Organising Walks
